About Us

BECKER Robotics - Factory Automation Solutions (Empowering Tomorrow)

Our goal and mission in every project is to focus on the customers overall needs and add value to their current processes and procedures through factory automation implementation.

Ultimately, we focus on the improvement and the efficiency of production processes through speed and technology while increasing production output through robotics, reducing personnel needs for certain tasks and energy costs. We achieve this by high-tech solutions combined with customer-specific engineering.

From concept to completion, Becker comes with the highest quality of workmanship, industry knowledge, and expertise.

“Great things in business are never done by one person. they’re done by a team of people.” Steve jobs

Robotic Integration Solutions

Becker is here to support you from the initial planning to design and installation to delivery buy-off and maintenance support of the complete production line(s) and special purpose robotic cells.

- Customized complete solutions for turn-key robotic cells
- Highest level of automation
- Shortest cycle time
  - Top speed and product safety are our core expertise
- Longevity and durability
  - Increased up-time for highest efficiency
- Modular system set-up
  - Based on modular approach, system components can be reused for new products
- Adaptability
  - Modular line set-ups allow for increased production capacity and system upgrades
- Quality
  - Integrated vision systems to maintain quality standards
- Spare part warehouses at all locations

SUPPORTING OUR CUSTOMERS SINCE 1993

Applications:

Becker provides fully engineered factory automation solutions utilizing all robot types, robot manufacturers, and applications

- Preferred applications:
  - Material Handling
  - Palletizing
  - Welding: Spot, Stud, MIG, Arc

- Complete spare parts warehouses in all locations with cable’s, hose, EGT material and more!

- Optimization and maintenance of robotic dress packages in the production line to improve performance for factory uptime

- Assembly and buy-off (final check) verification

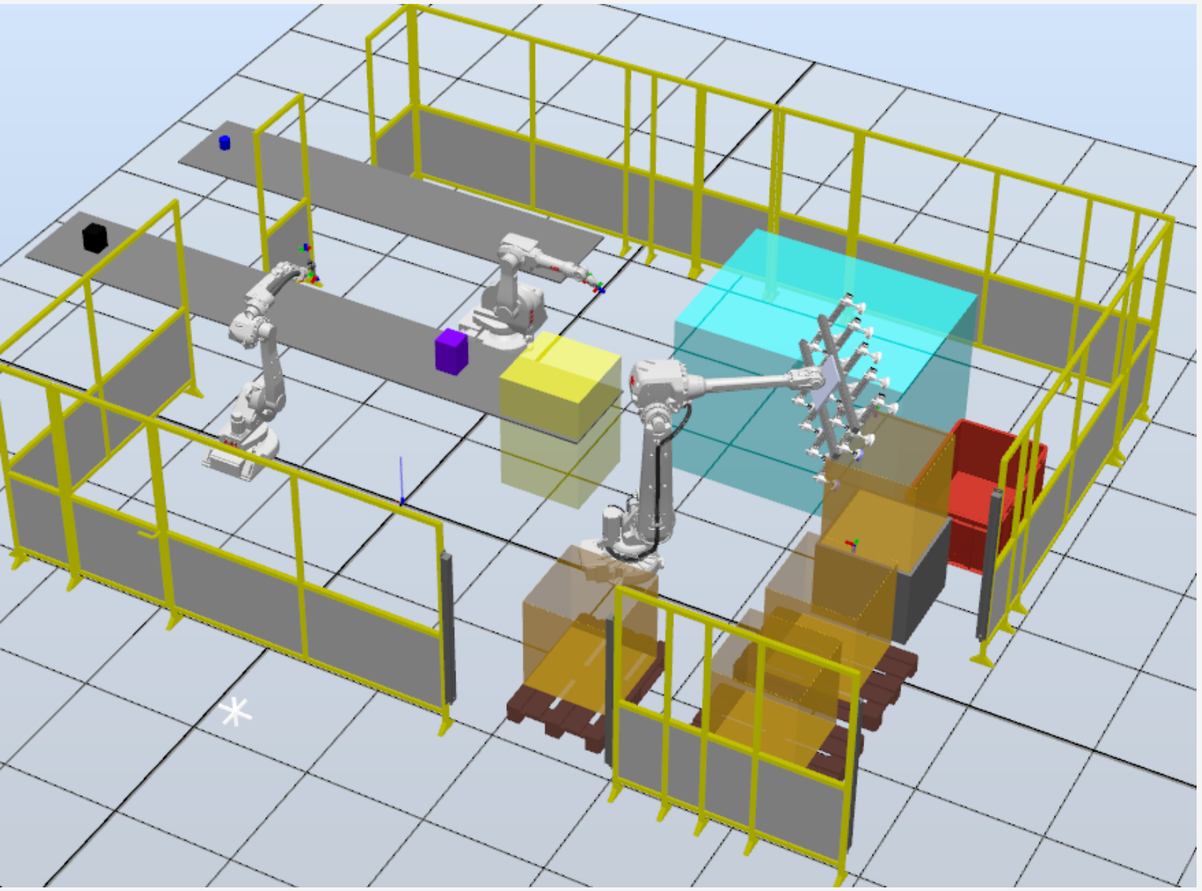
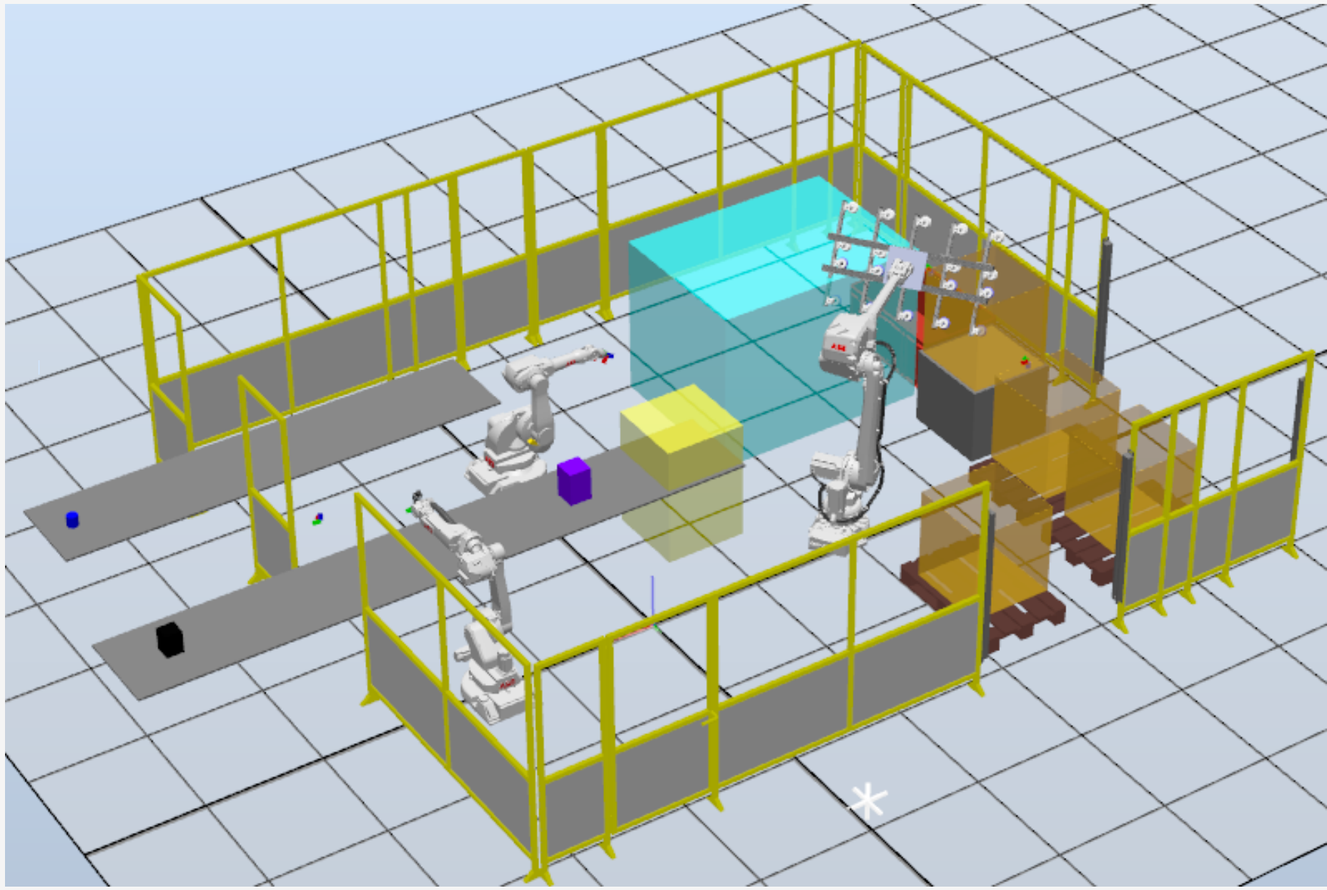
Custom Built Work Cells





INDUSTRIAL EQUIPMENT

Industrial Equipment

We manufacture and supply industrial equipment such as:

- High-Flex hoses
- Custom built cables
- Custom steel parts
- All types of industrial connectors
- Robotic Cable Management Equipment
  - Retraction Units
  - Non-Retraction Units
