

KEEP RUNNING AT PEAK PERFORMANCE

A well-maintained FANUC robotic system can last decades. Keep your facility running at top productivity with annual preventive maintenance service. Acieta maintenance and training services help manufacturers maximize uptime.

ACIETA SERVICE

Acieta supports customers quickly, thoroughly and expertly to ensure peak productivity is maintained.

PREVENTIVE MAINTENANCE

Acieta's certified maintenance technicians will help give you peace of mind that your system stays as productive as the day it was first installed.

24/7 TECHNICAL SUPPORT

Acieta technicians are available 24/7/365 to help troubleshoot problems and minimize downtime.
Call backs are within one hour.

PARTS

Acieta has access to FANUC and other brand parts for your robotic cell, regardless of who installed it. Plus, there is no restocking fee for most parts used for troubleshooting when installed by Acieta.

TRAINING

Proper employee training decreases lost production time while boosting ROI. Acieta offers training hosted at your facility or one of ours. Each class is tailored to fit the attendees' specific needs.

HOTLINE - 844-4-ACIETA

We're here 24/7/365 to help make sure that your robot keeps running. If a call is not answered immediately due to call volume, we will return your call within one hour.

ACIETA AND FANUC: PARTNERSHIP OF NEARLY 40 YEARS

Acieta is proud to be a FANUC Authorized System Integrator, Certified Vision Specialist, and Certified Servicing Integrator – a very select group of robotics companies that provide excellent quality, innovation and customer satisfaction.

Of all FANUC Robotics' Authorized System Integrators, less than 3% are Certified Servicing Integrators because it requires a rigorous commitment for technicians to pass specialized testing and training. Our technicians are FANUC certified so they will always be experts on the most cutting-edge robotic solutions available.

Why Use A FANUC Certified Integrator?

Our FANUC certification means that Acieta customers enjoy the following benefits:

- Highest level of customer satisfaction
- Leaders In Safety
- Parts Availability
- Expert Certified Engineers
- Repairs
