## FOCUS INTEGRATION **CUBE**

Compact, Pre-engineered Palletizers

# CUBE COMPACT PALLETIZER

## Compact Palletizing

CUBE is a compact robotic palletizer designed to be a cost effective way to add palletizing to your production line. This machine is ideal for small and medium-sized businesses looking to automate their packaging processes without taking up too much valuable floor space. Investing in a CUBE robotic palletizing cell can help you take your packaging process to the next level. It's the ideal solution for any business looking to streamline their operations and boost their bottom line.

**Get in touch with us today to learn more about CUBE and how it can benefit your business.**

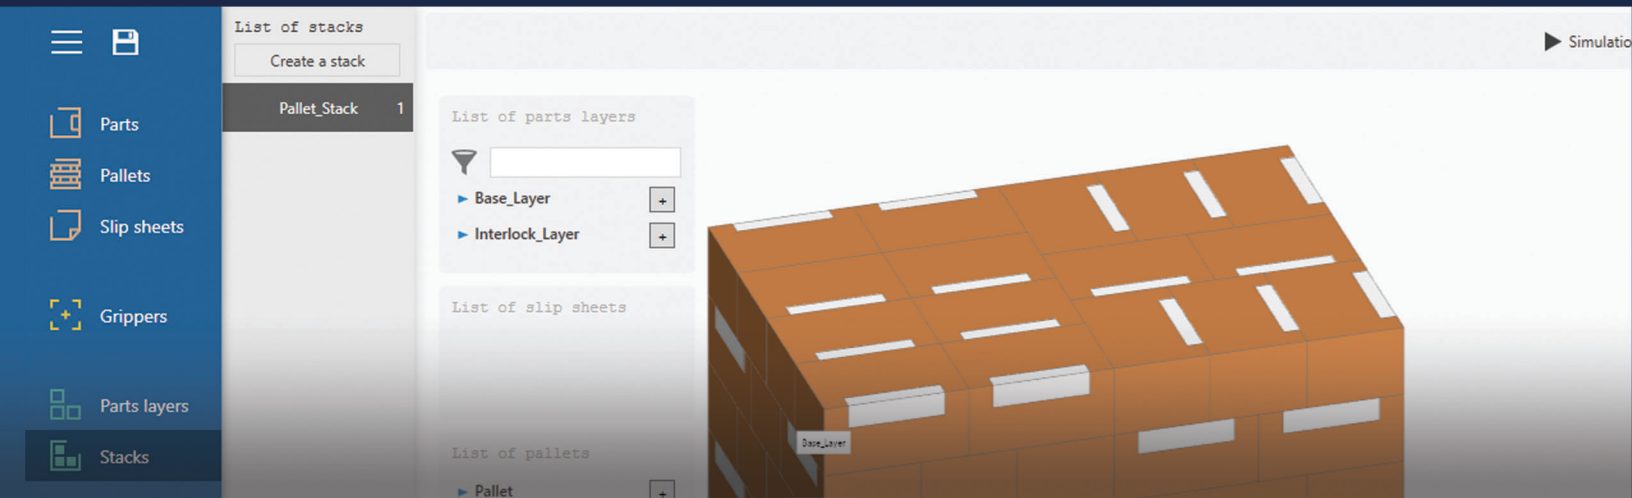

## Available Options

The CUBE Palletizer has a few options to ensure it fits your application.

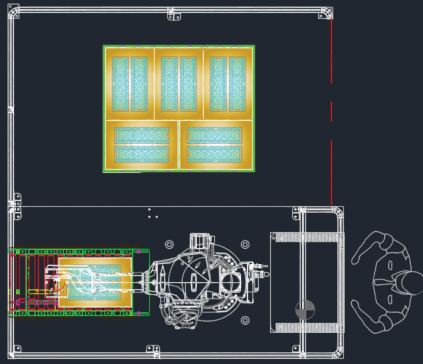

- Case, Pail, or Bag Tooling
- High speed Safety Hardware
- One side or Both Side Palletizing
- Automated Pallet Dispensing and Conveyance
- AMR Integration
- Additional Infeed Conveyance

**We specialize in making solutions to fit your needs**

Using KUKA's FlexPal software, modifying your stack patterns has never been easier. Free software on your PC can be used to edit patterns, and get rough simulations of the load before deployment to the cell.

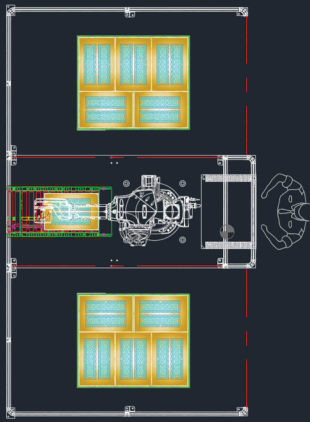

1

## One Side

The most compact CUBE Configuration, the robot palletizes to either the left or right side

- ✓ Builds to Floor
- ✓ Smallest Footprint
- ✓ Entry Safety Scanner
- ✓ Slipsheet Option Available

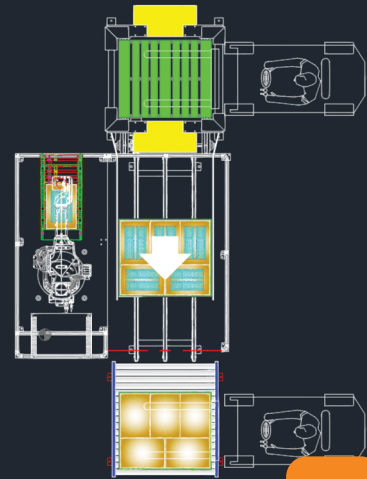

2

## Both Sides

Palletizing to both sides, allowing for removal of completed pallets without interruption to production

- ✓ Uninterrupted Production
- ✓ Higher Practical Rates
- ✓ Robot Zone Light Curtains
- ✓ Compact Footprint

+

## CUBE Plus

Adding a pallet dispenser and load conveyors improves the overall efficiency at a compact price and footprint

- ✓ Integrated Pallet Dispenser
- ✓ Pallet Conveyance
- ✓ Muting Safety Scanner
- ✓ Lowest Operator Interaction

CUBE robotic palletizers are highly cost-effective palletizing solutions. They require minimal maintenance and can run continuously, reducing the need for human labor and increasing productivity. With their compact design, they will help you save on space, energy, and operating costs.

THINK  
**BIG**  
BY  
THINKING  
SMALL

The CUBE fencing folds allowing it to ship as a single handling unit that is just over 4 ft x 8 ft, so when you want to think BIG, think small. Think CUBE.
